

LMS Academy — Testing Guide

Smart Sourcing USA · Step-by-step tests for Admin, Trainer, Employee & External users · June 2026

Before you start

Local site URL: `http://127.0.0.1:8000` (or your server URL)

Start the app: Run `php artisan serve` from the project folder

Frontend: After code changes, run `npm run build` and hard-refresh the browser (Ctrl+F5)

Stripe testing: Add test keys in `.env` or Dashboard → Settings → Payment

Test accounts

Role	Email	Password	Notes
Administrator	admin@lmsacademy.local	Admin@12345	Full dashboard access
Trainer	trainer@lmsacademy.local	Trainer@12345	Instructor + employee (free courses)
Internal employee	employee1@lmsacademy.local	Employee@12345	Auto-detected by <code>@lmsacademy.local</code> domain
External learner	Register new user	Your choice	Use a non-company email, e.g. <code>test.user@gmail.com</code>

If accounts do not exist, create them via **Register** (external) or ask your technical contact to seed users. Employee emails must use `@lmsacademy.local` or `@smartsourcingusa.com` to get free access.

Quick reference — main URLs

Page	URL path
Home / catalog	<code>/courses/all</code>
Login	<code>/login</code>
Register	<code>/register</code>
Admin dashboard	<code>/dashboard</code>
Student portal	<code>/student/courses</code>

1. Administrator testing

Log in as: admin@lmsacademy.local → you should land on **Dashboard**.

1.1 Users & learner types

- ☐ Go to **Users List** in the sidebar.
- ☐ Find an external user → open **Edit** → confirm you can set **Employee** or **External**.
- ☐ View a user's CV (View CV link) if they uploaded one at registration.

1.2 Courses & audience

- ☐ Go to **Courses** → **Manage Courses** → open or create a course.
- ☐ Set **Audience**: Internal, Public, or Both.
- ☐ Set a course as **Paid** with a price for payment testing.
- ☐ Add a lesson (video, text, or document) and save.

5. ☐ On a lesson resource, toggle **Allow students to download** on/off and save.

1.3 Student progress

1. ☐ Go to **Courses** → **Student Progress**.
2. ☐ Open a course → verify enrolled learners show completion %, quizzes, assignments.

1.4 Candidate pipeline (HR)

1. ☐ Go to **Candidate Pipeline**.
2. ☐ Open an external learner → check profile, CV, paid courses/exams, scores.
3. ☐ Change status: New → In Review → Shortlisted → Hired (or Rejected).
4. ☐ Add admin notes and save.
5. ☐ Click **View Payment History** on the candidate profile.

1.5 Payments & refunds

1. ☐ Go to **Payment Report** → **Online Payments** — confirm test payments appear.
2. ☐ Go to **Payment Report** → **Refund Tracking**.
3. ☐ Open a payment → set status to **Refund Pending** or **Refunded** with HR notes.
4. ☐ On a **Hired** candidate, use **Process Refund** (Stripe sandbox) and confirm the dialog + result log.

1.6 Stripe setup (if checkout fails)

1. ☐ Dashboard → **Settings** → **Payment** → **Stripe** → Active = ON, Test mode = ON.
2. ☐ Enter test keys from Stripe Dashboard, or set `STRIPE_KEY` and `STRIPE_SECRET` in `.env`.

2. Trainer (instructor) testing

Log in as: `trainer@lmsacademy.local` → Dashboard with course tools (not full admin menus).

2.1 Course management

1. ☐ Go to **Courses** → **Manage Courses** — see only your courses (not all admin courses).
2. ☐ Create or edit a course: title, audience, pricing, lessons.
3. ☐ Upload a video lesson and a PDF resource (test downloadable vs view-only).
4. ☐ Publish/activate the course if required by your workflow.

2.2 Student progress (own courses only)

1. ☐ Go to **Courses** → **Student Progress**.
2. ☐ Confirm you see **only your courses**.
3. ☐ Open a course → expand a student row → check completion, quiz pass/fail, assignments.

2.3 Trainer as learner

1. ☐ Browse `/courses/all` as trainer (employee) → paid course shows **Enroll**, not Buy Now.
2. ☐ Enroll in a paid course for free and open the course player.

2.4 What trainers should NOT see

- ☐ Candidate Pipeline, Users List, Refund Tracking (admin-only areas).

3. Internal employee testing

Log in as: `employee1@lmsacademy.local` (or any `@lmsacademy.local` / `@smartsourcingusa.com` email).

3.1 Registration auto-detect (optional)

1. ☐ Register with `newemployee@lmsacademy.local` → account should be **Employee** type automatically.

3.2 Catalog & internal courses

1. ☐ Visit `/courses/all` while logged in.
2. ☐ Confirm you see **internal** courses that guests cannot see (log out and compare).
3. ☐ Open a **paid** public course → button should say **Enroll** (free), not Buy Now.
4. ☐ Enroll and confirm the course appears under **Student** → **My Courses**.

3.3 Course player

1. ☐ Open an enrolled course → start a video lesson.
2. ☐ Try right-click and Ctrl+C in the player → should be blocked (content protection).
3. ☐ Video should play (signed URL in network tab, not raw `/storage/` link).
4. ☐ Download a lesson resource marked downloadable; view-only resource shows eye icon only.
5. ☐ Open assignment tab → download assignment PDF (should still work).

3.4 What employees should NOT see

- ☐ Checkout/payment page for paid courses.
- ☐ Candidate Pipeline (they are not in the hiring funnel).

4. External learner testing

Use: a personal email (not @lmsacademy.local or @smartsourcingusa.com).

4.1 Registration & catalog (guest)

1. ☐ Log out → visit `/courses/all` as a guest.
2. ☐ Confirm **internal-only** courses are **not** listed.
3. ☐ Register at `/register` with external email, optional CV upload.
4. ☐ Verify email if prompted, then log in.

4.2 Paid enrollment (Stripe sandbox)

1. ☐ Open a **paid** course with audience **Public** or **Both**.
2. ☐ Click **Buy Now** → complete checkout.
3. ☐ Stripe test card: `4242 4242 4242 4242` · any future expiry · any CVC · any ZIP.
4. ☐ After payment → redirected to course → enrollment confirmed under My Courses.

4.3 Free course

1. ☐ Open a free public course → **Enroll** without payment.

4.4 Learning & progress

1. ☐ Complete lessons, attempt quizzes, submit assignments.
2. ☐ Check progress on the student course page.

4.5 Admin-side verification (switch to admin)

1. ☐ Admin → **Candidate Pipeline** → external user appears with status **New**.
2. ☐ Confirm paid enrollments, scores, and CV visible on candidate profile.
3. ☐ Admin → **Refund Tracking** → payment shows as **Paid**.

5. End-to-end scenario (recommended demo)

Story: External learner buys a course → completes training → HR hires them → refund processed.

1. External user registers and buys a paid course (Stripe test card).
2. External user completes at least one lesson and one quiz.
3. Admin opens Candidate Pipeline → reviews CV and scores.
4. Admin sets status to **Hired**.
5. Admin clicks **Process Refund** → confirms → checks Refund Tracking + attempt log.
6. Employee user enrolls free in the same paid course → confirms no checkout.

6. Troubleshooting

Problem	What to check
Buy Now goes to login loop	Hard refresh after <code>npm run build</code> ; verify email on account
Stripe not shown at checkout	Enable Stripe in Settings → Payment; add test keys
Employee sees Buy Now	User type must be Employee; email domain must match config
Internal course visible to guest	Course audience must be Internal; clear browser cache
Video won't play	User must be enrolled; signed URL expires after 2 hours — reload lesson
Candidate not in pipeline	Only external learners appear; employees are excluded

7. Test checklist summary

Area	Admin	Trainer	Employee	External
Dashboard access	☐	☐	—	—
Public catalog	☐	☐	☐	☐
Internal courses	☐	☐	☐	N/A
Free enroll (employee)	☐	☐	☐	N/A
Paid checkout	☐	N/A	N/A	☐
Course player / protection	☐	☐	☐	☐
Student progress	☐	☐	—	—
Candidate pipeline	☐	N/A	N/A	☐ *
Refund tracking	☐	N/A	N/A	N/A

* External user is the subject of the pipeline, not the viewer.
